

MAJOR ACQUISITION FOR DÉZIEL HMI

Sherbrooke, December 20, 2022 - We are pleased to announce that the shareholders of Déziel HMI Inc. have acquired the Service d'équipement G.D. group (GD / REKA / TT - https://equipementsgd.com/index_en.php) and its 3 places of business (Saint-Augustin-de-Desmaures, Cap-Santé and Mariville).

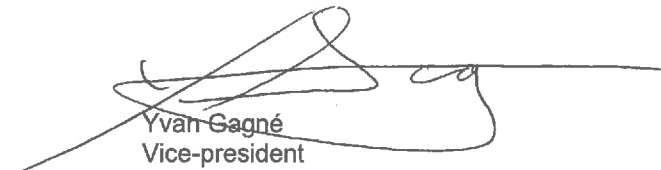

With this acquisition, Déziel HMI is partnering with a leader in the manufacture and installation of GD snow removal equipment, the manufacture and installation of REKA towing platforms, the manufacture of TT (Thétrault Théberge) buckets, the distribution and installation of Lagacé gravel dumpsters and other complementary products.

It is important to note that the team behind GD's success (Guy Deschênes, François Robitaille, Marie-Josée Roussel and all other staff members) will remain in place and contribute to the expansion and influence of Déziel HMI and the GD, REKA and TT trademarks.

Through this acquisition, Déziel HMI ensures that it offers high-quality Quebec products, recognized on the market and that can be installed in Quebec City, Sherbrooke and Mariville.

Founded in Sherbrooke in 1917, Déziel HMI offers a specialized service in mechanics, hydraulics and pneumatics and other specialties such as truck conversion for snow, platform lift and van installation. The company employs over 100 people and serves all of Quebec.

Looking forward to doing business with you.
